

YAMAHA

SNOWMOBILE

APPAREL &

ACCESSORIES

1989

NOTHING BUT THE BEST.

Don't waste time—or money. Because, for a great selection of quality products, you needn't look farther than your local Yamaha dealer.

Yamaha Leather Suit

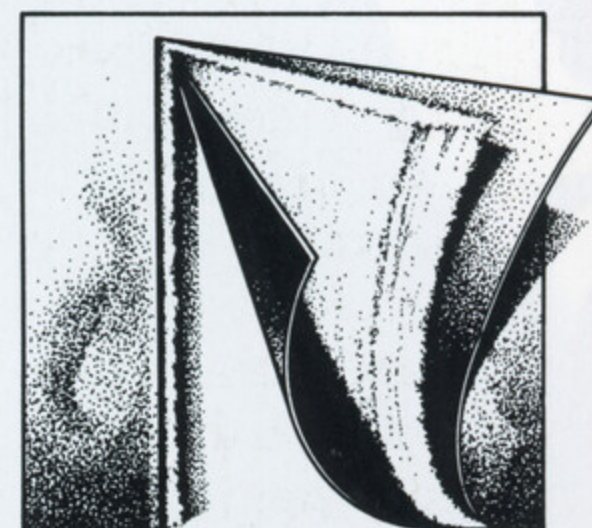

All new in style, Yamaha's Leather Suit is made from the finest drum-dyed grade-A cowhide. The jacket is lined with 6-oz. high-loft polyester fill, and features spandex panels for flexibility, padded shoulders and elbows, snap-down collar with soft knit inserts, and knit cuffs and waistband for comfort. Order it with or without Yamaha ID, in Short through XXLT. The bib-style pants have hip and chest pockets, and are lined at the seat with breathable, waterproof Porac™. A spandex lower back panel enhances reach and comfort, as do the stretch "popcorn" back and adjustable shoulder straps.

Snow Tech Suit

Yamaha's Snow-Tech Suit is not merely new, it's truly the state of the art. And it's clearly ahead of the competition. Designed in the U.S. by Yamaha, it combines time-proven construction with revolutionary new materials for incomparable protection. The new, softer outer shell is tough Syntex, coated with waterproof, breathable Hipora®. Insulation is high-loft Quallofil®, Dupont's finest, for down-like warmth. Pant seams are welded to prevent seepage. Stress points are bar-tacked. And YKK zippers are used throughout. The advantages are too numerous to mention. But one sub-zero day at speed tells the entire story.

High-loft Quallofil® insulation

Hipora® coated, Syntex outer shell

GET THE MAXIMUM IN PROTECTION AND STYLE.

**For a top-of-the line
nylon jacket or suit that
looks as good as it feels,
and gives top protection,
too, you can always
depend on Yamaha.**

A-B: Max Nylon Suits
New Yamaha Max Nylon
Suits and Jackets are tops
for cold-weather comfort
and unbeatable for style.
The tough, polyurethane-
coated Oxford nylon shell
and high-loft polyfill insula-
tion keep out wind and
weather, and hold in the
heat, as do the soft knit

waist, cuffs and collar. Bib
pants are high-cut for added
chest coverage, while heat-
welded seams prevent water
seepage. Spandex panels
help provide added mobility,
while extra padding in crit-
ical areas adds extra confi-
dence. Available in a wide
range of sizes.

A-B: Exciter Jacket

C: Phazer Jacket

D-E: Elite Jacket

With this trio of jackets you get fashionable style as well as Yamaha's traditional quality and value. All are made from tough, 210 denier Oxford nylon outer shell. Backed with a special polyurethane coating for high

resistance to wind and weather, it stays comfortably pliable, even in the coldest temperatures.

Holding in the heat is efficient, high-loft, soft-touch polyester polyfill insulation. Quilted in a 4-inch diamond pattern, it offers maximum warmth with minimum bulk and weight. Inner lining is

soft, 210 denier taffeta nylon—a finer quality fabric than found in most other jackets.

Keeping out the wind are premium YKK zippers with sport pulls, the finest available. They won't rust or discolor like metal zippers, and are more durable than standard nylon. Plus, outside

pocket and full front zippers are all backed by windflaps.

For additional sealing, collar, cuffs and waistband are made from soft, memory rib knit that contours closely and won't stretch out of shape. Hidden collar snaps are positioned so they never touch the skin, and let you zip the collar up to chin

level, or snap it down flat.

For additional strength, stress points are reinforced by bartacking. Antiqued aluminum D-rings are handy for securing gloves. And an inside loop lets you hang the jacket from a hook.

PROVEN QUALITY, FOR EVERY REASON.

**No matter where or how
you ride, Yamaha snow
apparel delivers the
most in quality, and the
most for the money.**

A-B: Slimline Suits

This suit offers super warmth as well as super style in a high-tech, low-bulk construction. Outer shell is soft Syntex for flexibility, coated with Hipora,[®] a waterproofing that stops wind and weather yet retains

breathability. It's lined with high-quality, high-efficiency Dupont Thermolite,[®] a thin insulation for warmth without bulk. High-cut bib pants offer new welded seams to prevent water seepage. New dual-entry jacket pockets make access easy.

C: Children's Jacket

Give your youngster the adult-strength comfort and protection of a tough, coated nylon outer shell, warm polyester polyfill insulation, YKK zippered windflaps, and memory-knit collar, waistband and cuffs.

A: Racing Jacket

B: Longline Jacket

C: Value Jacket

E: Blizzard Jacket

Stay warm in style, with Yamaha Jackets. All have durable, polyurethane-coated Oxford nylon outer-shells with YKK zippered

windflaps, to help keep wind and moisture out. To keep heat in, they use high-loft polyester polyfill insulation, and a soft 210 denier taffeta nylon inner lining.

At wrists, waist and neck, memory rib knit adds extra comfort. The Racing Jacket's baseball-style collar

adds warmth. The Longline adds an extra-length torso with drawstring waist, and a hidden hood in the collar. The Blizzard Jacket's tri-color design adds style, while the Value Jacket's price adds up to more of everything for less.

D: Value Pants

F: Standard Bib Pants

Attractively-priced waist-high Value Pants and chest-high Standard Bibs give you more for the money. Both feature 210 denier polyurethane-coated shells, top-quality polyfill insulation, bartacking in stress

areas, and premium YKK zippers. Value Pants have knee-length zippers, Standard Bibs have full-length zippers, and add snow cuffs, continuous-loop shoulder straps, and feature new heat-sealed seams to prevent water seepage.

YAMAHA. ALWAYS THE RIGHT CHOICE.

**For great fit, feel, and
attention to detail,
choosing Yamaha is your
assurance of high quality
and satisfaction.**

A-C: One-Piece Suit
Get exceptional comfort
with these rugged, Oxford
nylon, polyfill-insulated
suits. They're easy to wear,
with belted waist, full-length
two-way zippers and inner
snow cuffs, in sizes to fit
the whole family.

A: Polar Fleece Jacket

Stay warm in the after hours in this soft, snug, Dacron® polyester jacket. Features include memory-knit waistband and cuffs, zip-up front and collar, and a convenient hand-warmer pockets.

B-D: Turtlenecks

Polyester/cotton blend in red, white and black.

E-G: Lightweight Sweaters

Orlon interlock knit. Red and Blue have standard set-in shoulder; new Black has stylish saddle shoulder.

H: Heavyweight Sweater

Brand new, to help you handle the winter weather, this blazing Red crewneck with black trim is as warm as it is stylish. Warm, heavy-knit construction is smooth, long-wearing, and machine washable.

I-K: Sportshirts

Polo-styled shirts are made for active people from soft, comfortable, 50/50 poly/cotton material. New custom White has Gray pinstriping; the Royal Blue and Custom Black with Red accent also have pockets.

L-M: Long Sleeve T-Shirts

These high-quality long-sleeved shirts are made from comfortable 100% cotton. The Royal Blue features a bold winter graphic and Yamaha logo, while the White has pinstripes and logos on chest and sleeves.

QUALITY AND VALUE, BOTTOM TO TOP.

Whether you're involved in the heat of competition, or just into it for the style, Yamaha always puts you ahead.

A: Sweatsuit

Poly/cotton crew neck and pants have bold new graphics, elastic drawstring waist.

B-C: Sweatshirts

New poly/cotton crewnecks, in White and Black, sport a colorful chest design.

D: Children's Sweatshirt

Playful style for small folks, in three sizes.

E: Hooded Sweatshirt

Poly/cotton, with drawstring hood and hand-warmer pocket.

F: SNOSCOOT Sweatshirt

Soft, poly/cotton crewneck with fun, cartoon design.

G-H: Thermal Underwear

Comfortable ladies' button-up style and men's crew-neck, 100% polypropylene fabric wicks away moisture.

I: Nightshirt

New, soft, pastel pink, 50/50 cotton/poly blend with "Yamaha Quality Parts" logo.

A-H: Gloves and Liners

Handle the cold with Yamaha's warm, polyfilled nylon Gauntlet Glove(A), 3-Finger Glove(B) or Mitten(C). Comfortable Leather/Thinsulate® Gauntlet(D) and Max Leather/Thinsulate Glove(E) are pre-curved and reinforced. Weather-proof Gore-Tex™/Thinsulate Glove(F) with poly/cotton shell is second only

to the new Snow-Tech Glove(G). Durable Taslin outer shell has a combination of Thermolite® and high-loft Hollofill II® insulation for superior warmth. Windproof, water-resistant, breathable Gore-Tex™ glove liners keep your hands warm, dry and comfortable. Velcro® closures and snow cuffs add extra wind and cold protection.

I: Thermal Boot Liner

Thermolite®/Cambrelle®/Neoprene layers insulate feet against cold and moisture. Tested and proven to 70° below zero. Cut to fit.

J: Moon Boots

Water-repellant nylon with warm, closed-cell lining and flexible molded-rubber sole give excellent protection for light-duty hikes.

K: Snow Joggers

Great for riding, jogging and

hiking, with rugged four-layer construction, unique tread, molded arch and heel, sturdy leather toe cap, snug snow cuff, and soft fleece lining. (Quantities limited.)

L: Socks

Extra-thick, soft, loop weave for warmth and comfort.

M: Snowmobile Boots

Rugged and waterproof, with rubberized sole, nylon upper with side zipper, top drawstring, and convenient

quick-adjusting buckle. (Quantities limited.)

N: Boot Liners

Soft felt lining adds cushion and insulation for warmth, and is fully washable.

O: Snow-Tech Boots

Outer shell is water-resistant Oxford nylon, coated with breathable Hipora®, accented by garment leather and split suede, with Velcro® fasteners. Insulation is thick DuPont Hollofill® fiberfill.

AT THE HEAD OF THE CLASS.

Top off your cold-weather outfit with the finest in headgear and accessories and you'll stay warm, dry and secure, as well as stylishly protected.

A-F: Knit Hats

Add a dash of good cheer to every winter outing, and help stay warm with these highly practical knit hats. Made from soft, durable, 100% acrylic, they're machine washable for easy care. One size fits all, and seven bright, colorful designs with bold Yamaha logos let you pick a perfect match to your style.

G-J: Baseball Caps

You'll enjoy the classic good looks and tough construction of these all-American favorites. Available in Black Corduroy, Black Commander with "scrambled eggs," Gray Fleece and Blue Yamaha, each has the Yamaha logo. Sturdy visors help reduce overhead glare. And adjustable headbands mean one size fits all.

K-L: Yamafest Caps

Join the party with these happy hats. Both baseball cap and acrylic knit hat celebrate Yamafest in style.

M-R: Knit Face Masks

Get into one of these for an extra measure of cold-weather warmth and style. Machine washable, tight-knit acrylic weave provides soft, stretchy comfort and lasting durability.

S-T: Cotton, Thermal Facemasks

Soft cotton for full-coverage comfort. Reversible, vented, closed-cell neoprene.

U: Ear Warmer

Stylish, comfortable, washable knit keeps ears cozy.

V&W: Neck Warmers

Keep your neck and chin out of the freezing cold with soft, stretchy, machine-washable acrylic warmers.

YAMAHA

A: Wedge V Helmet

For 1989, the best gets even better: Wedge V, by Bell, gets a new soft black terry cloth interior and top pad, new metal pivots and even a hex pivot key. With lou-
vered vents, a Fog Fighter Mask, and extra-wide eye-
port design, this design
offers maximum visibility
in the toughest weather
conditions.

B: Defroger II

Made only for the Yamaha
Wedge, Defroger II is the
ultimate de-fogger/de-
froster/de-icer. Tough new
silver oxide elements are
silk-screened on the shield
for improved heating action
and durability. With a
3-position temperature con-
trol and quick-detachable
7½ foot power cord, it in-
stalls easily with hand tools.

**C: Open-Face Helmet
w/Defroger**

For top quality in an open-
face model, choose this
premium helmet, by Bell.
With improvements that
lower noise and raise com-
fort, including removable
terry cloth ear cavity pads,
this DOT-approved helmet
accepts the high-tech, 12-volt
Yamaha Defroger system,
which installs in minutes.

D-G: Helmet Decals

Let the looks of your helmet
match the style of your sled
with these self-adhesive re-

placement decals. Nine
exciting color/graphic com-
binations give you a choice
of styles and colors.

CLEARLY AHEAD IN TECHNOLOGY.

Yamaha's vision toward the future brings you products which show superior quality at a quick glance, and demonstrate superior durability for the long haul.

A-G: Shields and Visors

Available in a wide range of types and tints, Genuine Yamaha shields and visors are as good as they get. From the double-lens Fog Cutter to the precision-made Bubble Shield and Visor, from all-purpose, scratch-resistant Flat Shields to Hydron-coated Fog Fighters, Yamaha gives you unmatched quality and clarity.

H: Anti-Fog Spray

Special Hydromer® prevents fogging, restores clarity.

I-N: Goggles

Choose the goggles that suit your riding needs. Super Double Lens models use Hydron coating on the inside and scratch-resistant outers. Yamaha Super Goggles use a tough, anti-scratch material. Standard Goggles are just plain tough to beat.

O-P: Light-sensitive Opticals

Anti-fog-coated, light-sensitive Fog Cutter Shield and Goggles adjust their tint to match lighting conditions.

Q-T: Team Bags, Fanny Packs

Take it along for the ride with tough, spacious, water-resistant bags. Choose the huge, PVC outer/nylon inner Total Team Bag(Q) for boots,

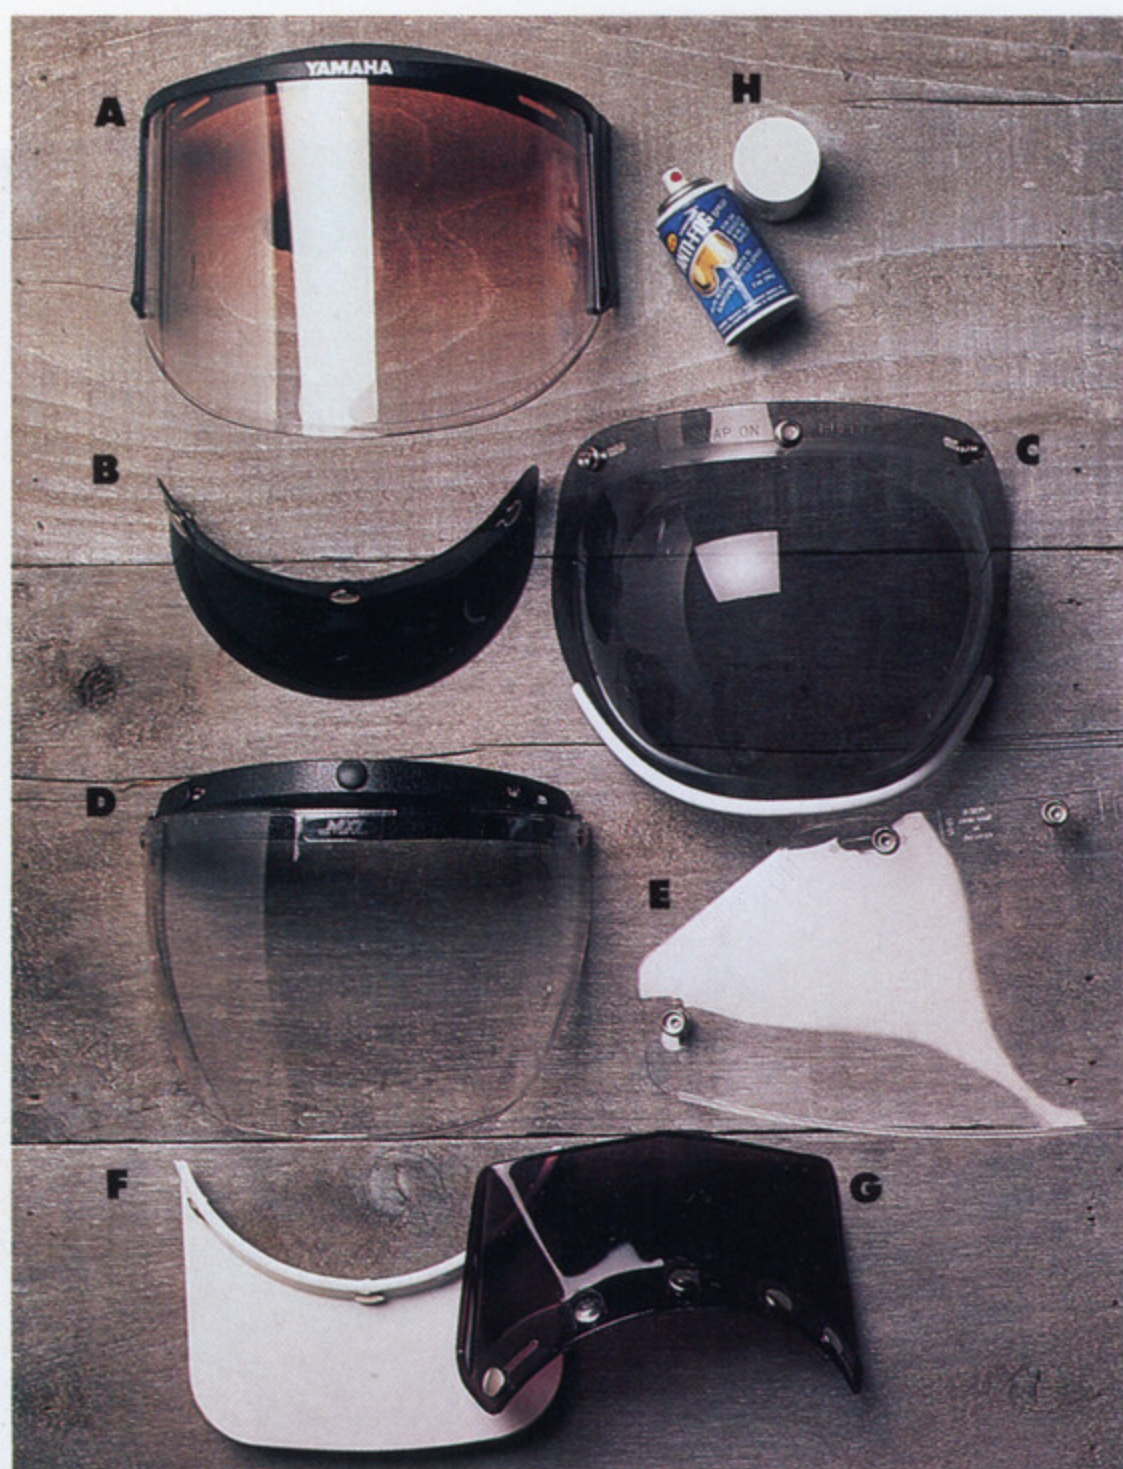

helmet and much more, large Canvas Team Bag(T), Nylon Team Bag(S), or the handy nylon Fanny Pack(R).

U: Wallet

Tough nylon construction with Velcro® closure.

V: Sofpack Tote Bag

Water-repellant nylon with separate zippered pocket and map holder. Works great mounted on seat or rack, or can be used as knapsack.

A: Snowmobile Covers

Durable, mildew-resistant, 10.10-ounce army duck canvas with a 1/4-inch elastic base is carefully designed for a snug, custom fit. A set of non-elastic cinch straps allow flap-free trailering, YKK-zippered gas cap opening allows easy fill-ups. Available in twelve different models, plus the universal Cover All.

B: V-Belts

Only genuine Yamaha replacement V-belts ensure efficient, slip-free operation.

C: Ski Runners—Sliding Runners

Reduced friction yields increased performance, with genuine Yamaha Runners.

D: Trailer Hitch

Provide a big boost in utility with this simple, quick, bolt-on installation.

E-F: Speedometer/Hot Grips

Complete, accurate kits with hardware. Low-drain, high-comfort Kraton® rubber grips.

G: Luggage Carrier

Precision-formed tubing with durable black powder-coat finish mounts easily, and carries up to 40 pounds.

H: Saddlebags

Weather-resistant cordura

nylon bags slip over the seat.

I: Bunji Cords

Strong, 2-hook x 18-inch, 2-hook x 24-inch, and 4-hook x 12-inch designs.

J: Tie-downs

Proven strength from heavy nylon webbing, vinyl-coated hooks, positive release buckle.

K: Phazer/Exciter Shield

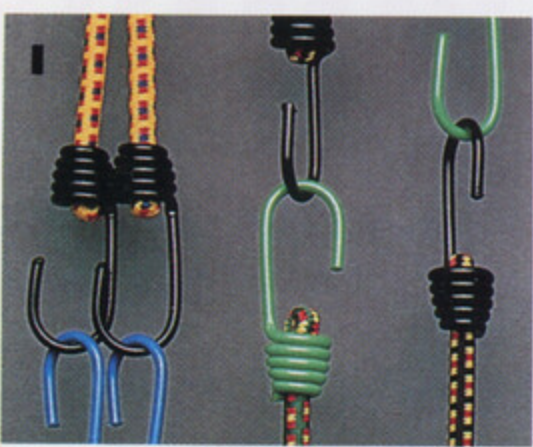

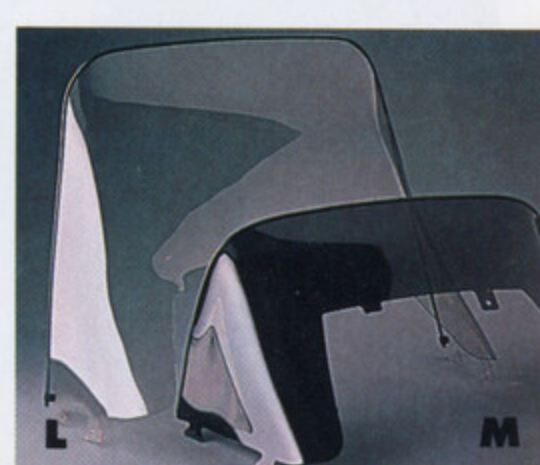

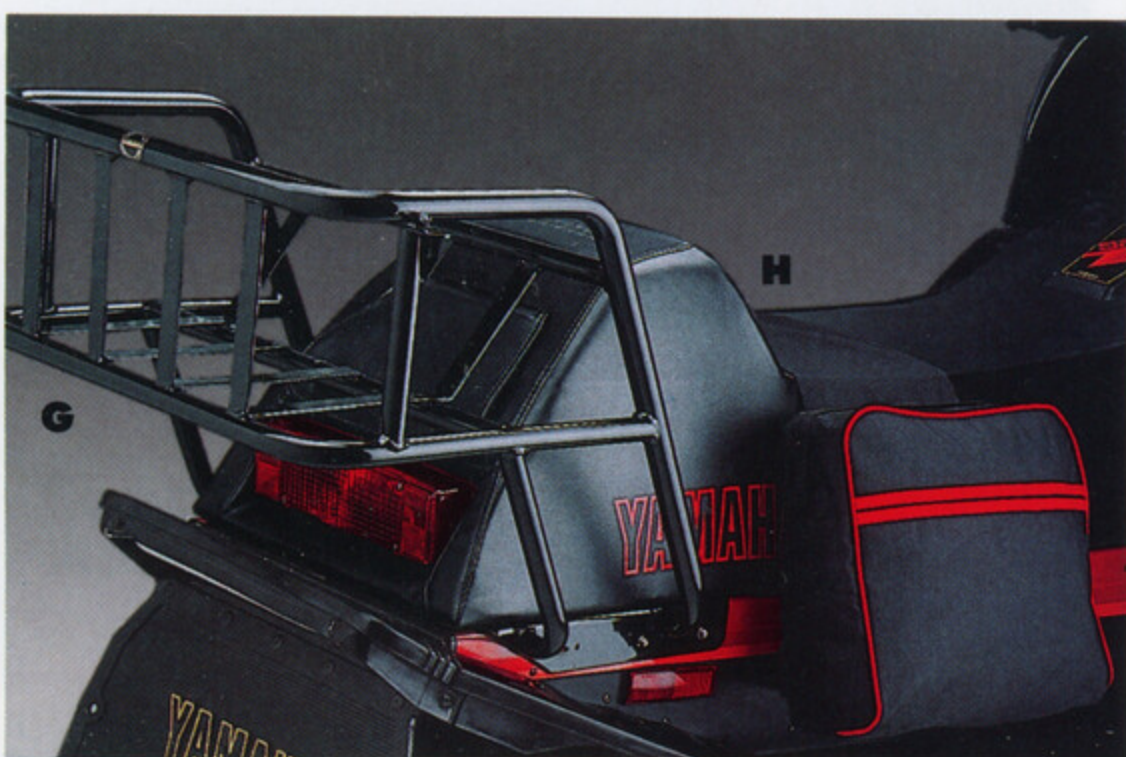

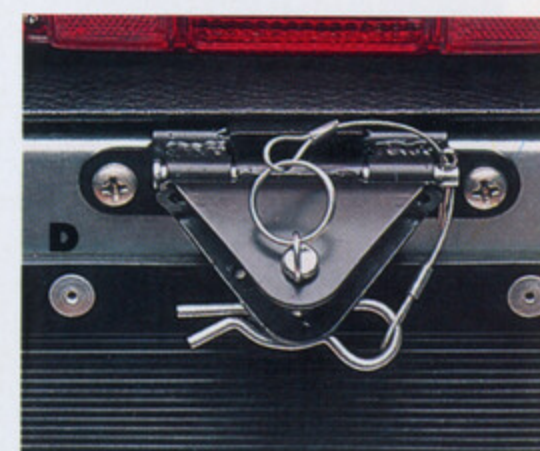

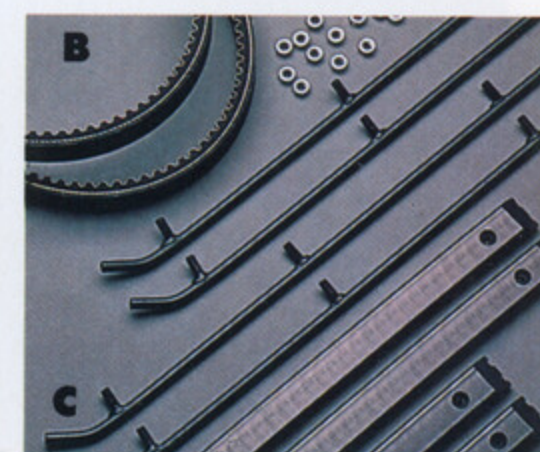

Stylish, dark smoke polycarbonate is approx. 4 1/2 inches lower than stock.

L-M: Accessory Windshields

Tall, clear shield maximizes coverage; short tinted model heightens the style.

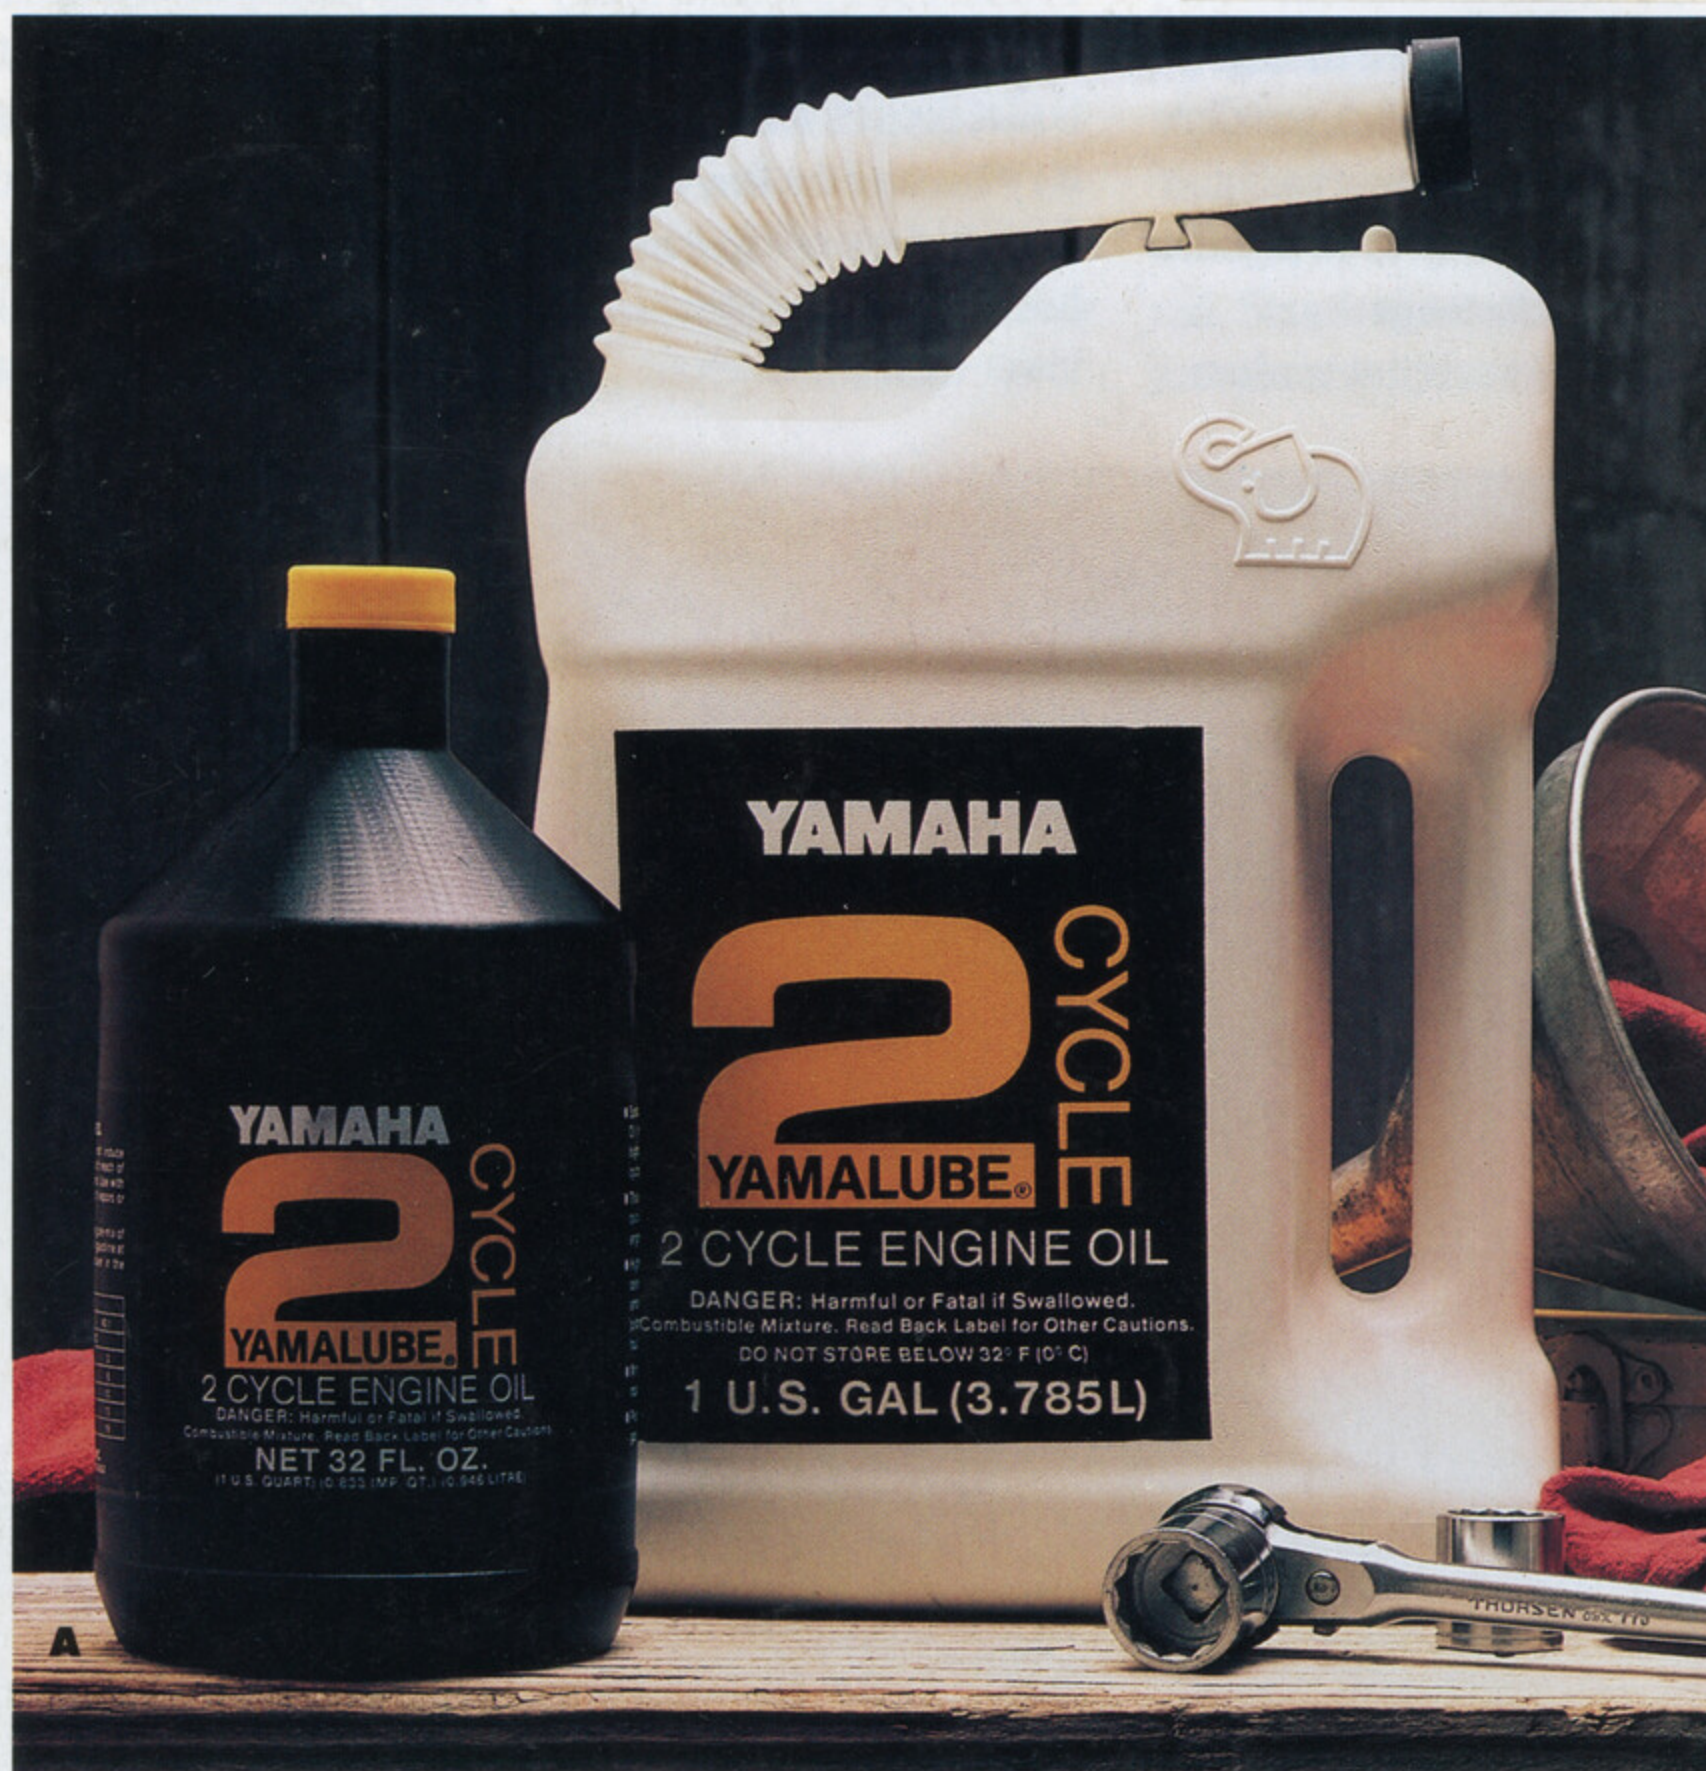

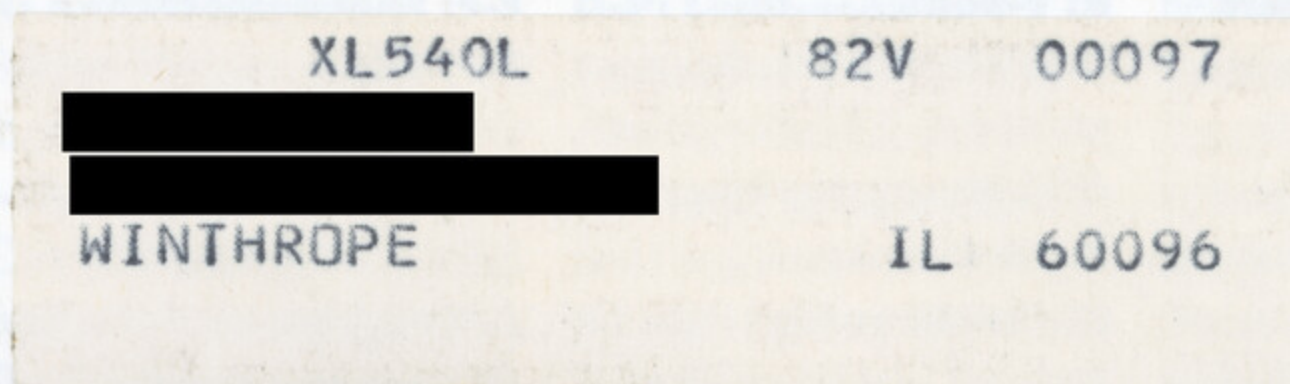

N: SNOSCOOT Windshield

Tough polycarbonate offers protection from the elements. Black powder-coated mounting system resists rust and corrosion. Shield conveniently removes and reinstalls in seconds, without tools.

A: Yamalube

The approved oil for Yamaha snowmobiles, premium-quality Yamalube 2 is blended from only the highest grade stocks, and is carefully formulated to provide maximum performance, protection and reliability. Special additives minimize wear, fouling and smoke. Detergent and corrosion inhibitors help keep the insides clean. Yamalube improves heat dissipation, and won't foam or break down at extreme temperatures.

B-C: Lubricants, Cleaners, Polishes

With an extensive line of high-quality care products, Yamaha helps you keep your sled running and looking its very best. A variety of specialized and general-purpose lubricants yields high performance, low wear, long life and safe storage. A range of

products—from Fuel Conditioner and Fuel Line Anti-Freeze to Point Cleaner, Adhesives and Grease Release—handle those special needs. And a complete selection of premium polishes and paints lets you apply the finishing touches.

D: Batteries, Charger, Spark Plugs

For quick, reliable engine starting on the coldest days, demand the best for your Yamaha: high-quality batteries from Yuasa and GS. Keep them at peak power with a Yamaha trickle charger with quick-release connector. And keep your engine operating at peak power with NGK spark plugs, officially recommended by Yamaha.

Whatever your cold-weather needs, count on Yamaha to carry the very best.
